The author tells about the troubles the women went through and what they accomplished. This book does not just talk about queens and princesses, but also includes

less privileged women who made important changes. It goes all the way back to Queen Makare Hatshepsut in 1530 BC and ends with Rigoberta Menchu. This book includes a trivia quiz and maps to show you where the women lived/live. Overall, I believe this is an excellent book because many of these women have been left out of school history books.

Kurzbeschreibung Engaging one page synopses of 100 women of major importance in chronological order, illustrated, time line, trivia quiz, locator map.
