Von Seymour Resnick : 1001 Most Useful Spanish Words (Dover Language Guides Spanish) before purchasing it in order to gage whether or not it would be worth my time, and all praised 1001 Most Useful Spanish Words (Dover Language Guides Spanish):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Little Book!Von Ein KundeWith only 55 pages, it packs a ton of vocabulary! It's so thin I can put it almost anywhere, even inside another book! Wonderful for building vocabulary on the go. It has the Spanish word, it's definition, then it has A SENTENCE IN SPANISH to show context, AND the English translation!!! If that wasn't enough, the last few pages it has groupings of words under various subjects. AND some vocabulary tips!!! I can't say enough about this little book. And did everybody see the price??! Unheard of!! Every new student of Spanish should own one.P.S. I think the person who gave this book a poor rating was being extremely unkind. This book never says it's anything

other than it is. A book to build vocabulary. It's not a dictionary. Dictionaries cost a lot more, and are heavy. (This book weighs 2 oz.!)0 von 0 Kunden fanden die folgende Rezension hilfreich. useful for a beginning speakerVon Ein KundeI found this book really useful. If you already know how to put together basic sentences in Spanish (I've only taken first semester Spanish)then studying from this book gives you a really good basis for conversation. When I was travelling in Mexico last year I remember trying to look up a lot of these important words and phrases in the dictionary but being unable to find them. If you plan on trying to use your Spanish you should study from this list of essential words, many of which are often left out of beginning Spanish books for some reason. The book also gives clear examples of how the word should be used in a sentence, which is helpful.0 von 0 Kunden fanden die folgende Rezension hilfreich. This book is not very helpful to beginnersVon Ein KundeI believe, as the author, that this book is intended for readers who actually know a bit of Spanish, not for beginners. I think that beginners need to find another book and get off my case about it being "too difficult" and "not properly organized". I worked very hard on this book, and you should all just shut up because it is very hard to write a good book, and even a bad one at that. Gracias, that's all I have to say about my delightful libro.

KurzbeschreibungStudents of Spanish will find here an enormously useful aid to building their Spanish vocabularies. Included are definitions of common Spanish words arranged by such categories as foods, numbers, days of the week, months, colors, the seasons, and family. The heart of the book is a dictionary, from a to zapato, in which each word is used in a Spanish sentence (with English translation) demonstrating its proper use. This useful learning and teaching tool was compiled by Seymour Resnick, a noted language teacher. It belongs at the fingertips of anyone studying the Spanish language.
