Von **Marion P. Holt, Julianne Dueber** : **1001 Pitfalls in Spanish (1001 Pitfalls Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised 1001 Pitfalls in Spanish (1001 Pitfalls Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very good reference, requires basic knowledge of SpanishVon NOBUKI SUGITAThis is a very good book although the

reader has to have a basic knowledge of Spanish, both in vocabulary and grammatical structures. This is because it is not a textbook but a reference as you can see from the construction of the book. First the parts of speech in Spanish are explained in alphabetical order, beginning from adjectives up to verbs. Then the sentence structure and special topics such as measurements and pronunciation are dealt with. It is not intended to be read from cover to cover, page by page, although it is still highly recommended to read it through at least once because, someday, you would want to make sure whether you should use imperfect or preterite in a particular situation and this book will surely come in handy. The topics are selected meticulously and explained in a structured and easy to understand way with abundant examples. If you are a learner who has a basic knowledge of Spanish this book will be useful and you will find yourself consulting it from time to time. But if you are a beginning learner who still has some grammatical issues to study you should wait buying it until you have become familiar with the language.

0 von 0 Kunden fanden die folgende Rezension hilfreich. Great book to refine your knowledge
Von Ein Kunde I've taken a Spanish immersion program in Costa Rica and received this book as a gift from the school. It's very useful if you already know some Spanish and want to check out specific issues that are confusing or simple like to improve your knowledge. Great reference book!

0 von 0 Kunden fanden die folgende Rezension hilfreich. Unexpectedly prompt delivery was just the start
Von Saaaailor Pitfalls came fast. But the best part was reviewing grammar, like the subjunctive. That came back really quickly thanks to the brilliant methodology laid out in Pitfalls. Enjoy!

Kurzbeschreibung Here's the perfect book to help students of Spanish overcome those troublesome details of vocabulary, nuances of meaning, grammar, usage and style.

Kurzbeschreibung Here's the perfect book to help students of Spanish overcome those troublesome details of vocabulary, nuances of meaning, grammar, usage and style.

Synopsis A supplemental textbook outlining fundamentals of the Spanish language and providing help for common obstacles such as complex sentence structure, vocabulary, and telephone conversations.
