Patchwork book !Von Mr. MagnusDifficult to give the stars !There are a lot of tips in this book and not all can be good or useful, but most are !Because of the amount of tips it is not possible that the author writes a lot about ever point so you just get a introduction and then a recommendation for a book which will tell you more !But I refuse to buy 101 books of this theme (also I like books and buy a lot !)Si in total this is really a patch work book !!!
