Recommended.Von The Wizard of OzJust in time for the movie release of the same name, this sort of therapy book takes an hilarious look at the ins and outs (pardon the pun) of sexual advice for both sexes plus couples. A fun, light-hearted read that I recommend.0 von 0 Kunden fanden die folgende Rezension hilfreich. 50 ShadesVon Thomas

Baker "50 Shades of Grey Poupon", by Damien Shields, is an offensive and inconsiderate, irreverent and incredibly provoking book. I recommend highly that no rational, normal people read this book. That means most adults and definitely no children, MY God, heaven forbid this book gets into the hands of anyone under the age of 18! Who is left that might enjoy this book??? Ay, there's the rub, as Will Shake the Spear would say. This book is intended for that 1% of the human population that is left who are not normal. If you are not rational, not confined by morality and reverent human behaviour. then you will be delirious with delight and happiness as you read this book. So, go ahead, rub your hands (both hands please) in anxious anticipation that this enormously entertaining, LAUGH OUT LOUD, all the time, all night long, roll-on-the floor, tears-running-down-your-face, sides-hurting, insanely hilarious, irreverent book was written for your reading pleasure. Grab a copy, and discover the pleasure of the Poupon, if you are lucky, that is... Oh Yes, for the record, I admit that I read this book, from the first page to the last, because, well, at least one normal human being (me) needed to read it, so I could inform the abnormal humans that this book is a MUST HAVE! I'm just thrilled that I was given a copy of this book in exchange for my fair and unbiased opinion. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Chicken Breast with a Grey Poupon and Cream Sauce. Delish! Von Zapple Being the cynical slug-owner and cabbage thrower that I am I demand to see this Dr Damien's credentials at once! I do not for one minute buy into this fraud's claims at all. I read all the cases, the conversations with the patients and took onboard all of the advice and they didn't help me one iota! I'm still the same and I don't wish to be! I demand a refund and an immediate inquiry. I shan't imagine that the great wordsmith E. L. James would much approve of the title neither. And as for the content? Ridiculous! It's hilarious! You cannot take any of this seriously at all. Poor old Sigmund Freud's ashes will be doing somersaults in his urn at Golders Green Crematorium. Hold on, Carl the Slug needs to have quick word with me. 'It's a what? Parody? Oh. 'Alrighty then, ignore most of what I said. This is indeed a clever book as it exposes, not in a perverted man only wearing raincoat sense, all those pseudo-intellectuals we get on morning TV. It also fooled me. For shame!

This book is guaranteed to change your life forever. Hi I am Dr. Damien and my credentials speak for themselves. I am a board certified Psychosexual Therapist out of the Whiskoky tribe in the great State of Nevada. I like to consider myself a Therapist of the people who gives a damn, and goes that extra little step in order to make my clients comfortable enough around me that they are not afraid to really open up, and tell me exactly what it is that is bothering them sexually without having to feel any kind of guilt or shame as if they were speaking to a friend or relative about their sexual issues. I have dealt with hundreds of clients over my time as a Psychosexual Therapist and I have heard and seen most everything that is imaginable. I have been given written permission from some of my clients to document some of our conversations, whether they be face to face, or via email, or telephone conversations. My clients want to help others as well. They are excited to see some of our conversations in print and hope that possibly someone can benefit from some of the advice that I have given them should they have a similar story to tell. Before we go any further I must remind you all that this book is for adults only. There are some pretty graphic topics that my clients and I discuss and all those who read this should be over the age of 18. So enjoy 50 Shades of Grey Poupon and remember one thing. I am a Doctor. And my credentials speak for themselves. Do not attempt to try this stuff out at home. Leave it for the professionals. Dr.
