I have bad health and it is good to hear of heaven and that is where I am headed for. I learned so much from this book. Needing to ask for help from others. This was so hard for me. And to know I will never be able to do the things I used to do. But now I try to think of things I can do. I am

I Understand That Im Not The Target Audience For This Book HoweverVon Stella CarrierOne of the reasons that the book 90 Minutes In Heaven by Don Piper with Cecil Murphy appealed to me is stemmed from part of my intent to increase my understanding of both traditional religion and new age ideas on heaven towards my intent of writing under a username (that definitely is not going to involve the word star). Some of the strong and compelling points of this book;Piper goes into what he saw and felt during his time in heaven for chapter two.Pages 78-79 capture his truth of admitting that there was a time where he wanted to go back to heaven and found little comfort in various psychiatrists trying to talk to him on how he was doing.Pages 130-131 and 134-135-Pipers discussion with a man who was one of the many who helped pray him back to life and their sense of spiritual urgency. Piper also recalls that whoever might have been holding his hand during the car crash was a benevolent spirit from heaven (i.e. maybe an angel).Pages 148-152; Other members of Don Pipers family recall what went through their minds and hearts during and in the aftermath of the events surrounding his recovery (i.e. Pipers children Nicole, Joe, and Chris as well as his wife Eva).Pages 166-167; Piper shares how he met his wife Eva at Louisiana State University and the dramatic story of how a person at of his events unexpectedly died soon after at just 20 years of age (to the shock of multiple students who knew him).The only catch is that there are only some pages out of the 207 page book that covers his time in heaven, however it was still a gripping read. There is more that is tempting to say about this book, but my conscience is guiding me to put aside my own personal spiritual biases out of consideration for the author, other reasons, and a major confession on one major reason why; I admit that I controversially believe in the idea of various realms within heaven and hell even with my interest in the new age and occult arenas, but I believe that there are spirits that are allowed to ascend from the lower darker realms (i.e. the realms in what is called hell) after a period of time depending on the persons soul and intent to spiritually grow (kind of how a reformed criminal is allowed out of prison after showing the potential to change, but my heart and conscience is guiding me to avoid publicly sharing more within this review). However, Im still grateful to have come across this book because it helped remind me that Im more than how I feel on my human ego side when it comes to sometimes feeling prejudged based on my perceived work in progress intelligence/progressing wisdom and a reminder to instead be more grateful/self-confident for what I already have (in addition, the book served as a healing reminder for me to more carefully have my spiritual life be more of a prominent guide as I pursue certain career goals).
