Von Erynn Rowan Laurie : A Circle of Stones (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Circle of Stones (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An Excellent Guide to Celtic Spirituality!Von Randall A. WeiserThis is not your usual "Let's pretend we're ancient, Atlantian Celts" book!!! This is a thoughtful, insightful look at Celtic Spirituality, written by a woman who knows her

stuff! The passages from Celtic literature add to this work, taking the reader on a truly magical journey to the Celtic Otherworld and back. If you're Celtic in heritage, this is one way of 'getting back to your roots'; if you're Celtic in spirit, this is one way of appreciating and experiencing one aspect of Celtic Spirituality in a totally new context. (Knowing the author as I do, and knowing how hard she and her husband worked on it, I am truly in awe of their wonderful creation!)

Kurzbeschreibung A Circle of Stones, originally published in 1995, offers a unique approach to meditation and Otherworld journeying in a Celtic Pagan context through the use of prayer beads as a focus for understanding early Gaelic cosmology and ways to journey through its three realms of land, sea, and sky. With chapters on ritual, altars, journeying, and communicating with deities, this short book has provided seekers with tools for their spiritual work for nearly twenty years. This new edition offers a much improved pronunciation guide for the Irish and Scots Gaelic in the text, and a new foreword that offers context for the book's historical place in the emergence of Celtic Reconstructionist Pagan spirituality. One of the classic foundational works of the Celtic Reconstructionist movement, A Circle of Stones presents a beautiful meditation discipline centered around a reconstructed cosmology of the pagan Irish Celts. Drawing upon traditional Gaelic prayers, poetry, and mythological symbolism for use in concert with a mindfully crafted Celtic mala or set of prayer beads, Erynn Laurie has created an accessible gateway through which the dedicated seeker may explore the realms of the Irish Otherworld and activate its various strands of wisdom in their lives." Jhenah Telyndru, Avalon Within: A Sacred Journey of Myth, Mystery, and Inner Wisdom, Founder, Sisterhood of Avalon Circle of Stones was not only the first book introducing us to Celtic Reconstructionist Paganism, but was also the most sublime. A simple collection of meditations and instructions that simultaneously introduces the reader to the language, gods, and poetry of the ancient Celts. This is a workbook that rewards repeated returns to its pages, allowing novices and experienced Pagans alike to drink from Manannan mac Lir's well of wisdom. The return of Laurie's book to print is a boon, a gift to the wider Pagan community that should not be overlooked. Jason Pitzl-Waters, The Wild Hunt @ Patheos.com This long-anticipated and much-demanded reprint of A Circle of Stones will continue to stand, as has the first edition, as an important monument in the growing modern tradition of Celtic Reconstructionist polytheist practice, particularly in the medieval- and folk-derived Irish traditions of that movement. The historical significance of this book alone makes it a necessary item in the library of anyone interested in these subjects. Dr. Phillip A. Bernhardt-House, Werewolves, Magical Hounds, and Dog-Headed Men in Celtic Literature. Bernhardt-House, Werewolves, Magical Hounds, and Dog-Headed Men in Celtic Literature. Der Verlag ber das Buch A Circle Of Stones - AVAILABLE NOW! "A CIRCLE OF STONES" REVIVES ANCIENT SPIRITUALITY IN A SYSTEM FOR MODERN CELTS The ancient Celtic world is one of which we know both very much and very little; we can enjoy images of the early Celtic world in the surviving art and poetry, but only traces of the ancient beliefs can be glimpsed through a millennia and a half of Christianity in the Celtic lands. In "A Circle Of Stones", Erynn Rowan Laurie has delved into the early poetry of Ireland, Scotland, and Wales to reconstruct a practical spiritual guide for those seeking to touch those ancestral Celtic roots. "A Circle Of Stones" walks the reader through the history, culture, and beliefs of

the ancient Celts and gives instructions for creating the "na gcloch machnamh", the "stones of contemplation", a sort of Celtic "rosary" used as a meditation aid. Daily meditations are provided (in English and Gaelic) to allow the student to connect with the various mystical elements of the Celtic world, deities such as Danu and Bile, the three realms of Sacred Land, Eternal Sea, and Endless Sky, and the Winds of the four directions. Anyone of Celtic heritage who has wondered about their "native" religion should be able to find these answers in "A Circle Of Stones", there is information and guidance on rituals, altars, approach to the Gods, and the journey through the sacred realms (a key element to Celtic mysticism). Extraordinarily well researched, this volume offers ways for the reader to both explore the spirituality and to further investigate the source material.
