She set off on her travels following the deaths of her father, her husband and both of her sons. Like many women travelers, she challenged conventions and in her first book *A girls ride in Iceland* (1889) she sparked a "war, on what proved to be a very vexed subject," by championing the right of women to sit astride a horse rather than riding side-saddle. Her perceptions of local cultures and descriptions of the places she visited can be read afresh in *A winter jaunt to Norway* (1894); *Through Finland in carts* (1897); *Mexico as I saw it* (1901); and *America as I saw it* (1913). She also wrote *Women the world over* (1914), and her autobiography *-Thirteen years of a busy womans life* (1912).
