KurzbeschreibungFor half a century, Weston was one of the most famous people in the English-speaking world as the first age of international celebrity unfolded. The godfather of the pedestrianism movement - a sport that took the Victorian world by storm - he criss-crossed Britain and America on foot earning fame, fortune and notoriety in an athletic career that saw him complete some of the most amazing endurance feats ever witnessed. The co-authors have skillfully recreated a vanished world to tell one of the most amazing stories in sporting history.PressestimmenPraise for Nick Harris's book *The Foreign Revolution*: "Harris has travelled down the byways of football and life with great tenacity and insight and his gift to the world is twofold: a significant piece of sport history. And a blockbusting read." - James Lawton, *The Independent*. "Harris's strength lies in his tireless research, emerging with a series of stirring stories." -*The Sunday Times* "I can only praise his diligence and detail." -John MotsonKurzbeschreibungFor half a century, Weston was one of the most famous people in the English-speaking world as the first age of international celebrity unfolded.
