Kurzbeschreibung How long were the creation days of Genesis hours or epochs? Does belief in an old earth equate to believe in evolution? Was there any kind of death before the fall? The length of the creation days in Genesis sparks a storm of controversy. At the core of this dissension lie key questions, the answers to which provide hope for resolution. Hugh Ross addresses these questions as he explores how the creation-day controversy developed. Updated edition with over 50 pages of new content!
