KurzbeschreibungA B C Photography was written for the curious beginner who wants to learn more than how to push a button on a camera. Get ideas, suggestions and tricks of the trade from an award-winning photographer. Learn about the history of digital and film media. Your brain and eye compared to a camera and lens, CCD versus CMOS, what different lenses are used for, what is an ISO. How you can use the aperture for clarity and depth of field. See the first 6 pages of this digital book if you type mthomasesqi in the YouTube search box and look for ABC Photography-Beginners book on Photography by MThomasEsqI . This book will also let you know what the function of the mirror and shutter speed have in common. What causes Red Eye? How to photograph a heavy person and make them look slimmer, photographing outdoors versus photographing indoors, different lighting, how to use a flash indoors and outdoors. This book also contains many PIC TIP ideas on how to make that photo more than just a photo. It will teach you the ways of the professional when photographing the simple to the complex subjects.KurzbeschreibungA B C Photography was written for the curious beginner who wants to learn more than how to push a button on a camera.
