Von Victoria Bampton : Adobe Lightroom 3 - The Missing FAQ - Real Answers to Real Questions asked by Lightroom Users (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Adobe Lightroom 3 - The Missing FAQ - Real Answers to Real Questions asked by Lightroom Users (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 2 von 2 Kunden fanden die folgende Rezension hilfreich.
Amazing Von T. Kieslich It's the Lightroom Queen - and she managed to put an amazing range of knowledge and details between the covers. This book certainly is not the typical entry-level product manual dashed out by a printing company in a rush. It's a comprehensive guide compiling real live questions every Lightroom user might encounter.

Although one can read this book cover to cover it's more likely the reader wants to attack a certain problem. Here the really detailed TOC comes in pretty handy. What's really cool is that you can get a PDF with the book as well - it's absolutely great for on the fly searches while you're working in Lightroom. I regard this as one of the essential manuals if one wants to dig deeper into Lightroom. The only minor drawback is the lack of colour - thus only four stars.

Kurzbeschreibung When you have a Lightroom question, where do you look? Do you trawl through thousands of web pages looking for the information you need? Perhaps post on a forum and wait hours for anyone to reply? Maybe try to figure out the Help files? From now on, you look right here! This is the reference book that should have shipped with Lightroom. Adobe Lightroom 3 - The Missing FAQ is a compilation of the most frequently asked questions, presented in question and answer format so that you can easily find the answers you're looking for. Whether you're a new user who likes to dive straight into new software and figure it out as you go along, a more experienced user wanting to learn how to get the best out of Lightroom, or you've just got a burning question you'd like answered, this book is for you. These are real-world answers to real questions asked by real Lightroom users. It not only covers how to do things, but also why they work the way they do. Lightroom may have a mind of its own... but now you can learn how it thinks. The story behind the book... and a FREE bonus! The Adobe Lightroom - The Missing FAQ series was originally intended to be a searchable PDF eBook, however once the book was released to the public, a demand arose for other formats too. Anyone purchasing this Kindle version is invited to contact the author via her website to access the main color PDF format, ePub format, and any future LR3 Kindle updates absolutely FREE. ****SCREENSHOT QUALITY - Thanks to Karol for pointing out the problem with the screenshots being too small to read in the first release. The file has now been rebuilt with maximum size images which are much clearer. Anyone who has already purchased is welcome to contact the author for the update.****
