Von Mark W. Nolting : African Safari Journal before purchasing it in order to gage whether or not it would be worth my time, and all praised African Safari Journal:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Great Safari Companion Book!Von Ein KundeI think this journal is innovative and very useful. Not only does it provide a myriad of information about the main safari destinations in Eastern, Central Southern Africa, but it also has blank pages for journal entries, a safari itinerary, film log, shopping list addresses. It has a great packing list, metric temperature conversions, rainfall/temperature charts in various African cities and a southern hemisphere constellation

map - all of which I use to gather separately before going on safari. Along with general travel information, it contains basic maps of the main safari countries and national reserves in Tanzania, Kenya, Uganda, Rwanda, DROC, Zambia, Zimbabwe, Bostwana, Namibia South Africa. I also like the mammal guide, mammal checklist and phrase guides. I bought one for myself as I am going back to East Africa this year and another as a gift for a friend who is going to Southern Africa next month.

Kurzbeschreibung Going on safari requires preparation and no book leaves a traveler better prepared than this one. Including a wildlife guide and checklist, trip organizer, phrase book, safari diary, and map, this tremendous resource puts all necessary information right at the travelers fingertips.
