DisappointingVon K. W.I found this book to be a real disappointment. While the words "all kinds of families" seem to open up a world of possibilities, the pictures tell a different story. Yes, the families may be black or white, old or young, married or divorced, or even include someone who is in jail. HOWEVER - the pictures almost always show an adult male and an adult female. As a single mother of two children, both of whom came to me through donor insemination, I do not feel that this book sends an inclusive message to families that do not include a father figure.0 von 0 Kunden fanden die folgende Rezension hilfreich. Families share a history a future.Von Ein KundeThis read aloud book talks about many living family situations. 2 themes of the book are "a family is people who belong together" and families share a history a future. Excellent for children who are uncertain about their own unique life styles.0 von 0 Kunden fanden die folgende Rezension hilfreich. A great book for family studiesVon Ein KundeI use this book all the time in my preschool classroom. It does an excellent job of presenting traditional and non-traditional

families in a positive light. My students love it, and that's the best recommendation I can give.
