I bought it at a used book sale in third grade, and have loved ever since. Now that I am in college, I still keep it under my pillow as the perfect cure for insomnia. In fact I have read this book so many times that if you give me the first line of a passage, I van continue the quote for you. So.. though I am on to reading bigger and better things now, I move anyone to buy this book and allow

it to take you on a journey you will never forget.0 von 0 Kunden fanden die folgende Rezension hilfreich. I take this book everywhere I go!Von Ein KundeAnastasia Again is about a young girl named Anastasia and she is having some problems. Her parents want to move to the suburbs but she says that she doesn't want to move because all the articles say bad things about the suburbs. I really like this book. I read the first few pages and I love it. Everywhere I go I take it with me. Lois Lowry is a great writer. I think that what Lois Lowry is trying to say is that things that seem bad sometimes come out being good.0 von 0 Kunden fanden die folgende Rezension hilfreich. This and all the other Anastasia books were great.Von Ein KundeI loved this book.It was funny,serious,and just down-right good.Girls who are ages 10-12 would find this book especially good.Anastasia goes through most of all the same situations that almost all other pre-teenage girls go through.I enjoyed this book a lot,and I think that all girls should read it.Thank you.
