Von David Burch : Emergency Navigation, 2nd Edition: Improvised and No-Instrument Methods for the Prudent Mariner (International Marine-RMP) before purchasing it in order to gage whether or not it would be worth my time, and all praised Emergency Navigation, 2nd Edition: Improvised and No-Instrument Methods for the Prudent Mariner (International Marine-RMP):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Wonderful bookVon berobisopVery useful not only for "all-instruments-fail-situations", but also for a deeper

understanding of celestial navigation and ocean crossing in general. Fridtjof Schiefenhvel

Kurzbeschreibung Find Your Way at Sea, No Matter What Inherently interesting and fun to read . . . provides the clearest understanding of general navigation principles we've seen yet.--BoatU.S. Thorough and authoritative.--Sea Kayaker A definitive work of instant appeal to seamen of all levels of experience.--The Navigation Foundation Every sailor knows that instruments can fail. Things get wet, break, fall overboard. Whether you're safe on your boat or drifting in a life raft, let David Burch show you how to find your way no matter what navigational equipment you have. Often relying on common materials like a small stick, a plastic bottle, even a pair of sunglasses, Burch explains how to make use of all available means--from the ancient skills of Polynesian navigators to the contrails of airliners overhead--to calculate speed, direction, latitude, and longitude and to perform all aspects of piloting and dead reckoning. Learn how to Steer by sun, stars, wind, and swells Estimate current and leeway Improve your own knotmeter or plumb-bob sextant Find the sun in a fogbank Estimate latitude with a plate and a knotted string And more vital information Kurzbeschreibung Find Your Way at Sea, No Matter What Inherently interesting and fun to read . . . provides the clearest understanding of general navigation principles we've seen yet.--BoatU.S. Thorough and authoritative.--Sea Kayaker A definitive work of instant appeal to seamen of all levels of experience.--The Navigation Foundation Every sailor knows that instruments can fail. Things get wet, break, fall overboard. Whether you're safe on your boat or drifting in a life raft, let David Burch show you how to find your way no matter what navigational equipment you have. Learn how to Steer by sun, stars, wind, and swells Estimate current and leeway Improve your own knotmeter or plumb-bob sextant Find the sun in a fogbank Estimate latitude with a plate and a knotted string And more vital information Synopsis Find your way on the water, even when your equipment is down. As complex electronics have come to dominate boat navigation, "Emergency Navigation" provides an essential backup for every ocean mariner. David Burch shows you how to find your position and plot a course to safety - even if your navigation equipment is damaged or lost - using ancient and modern skills or rudimentary materials like a stick, a piece of string or a pair of sunglasses. This new edition includes new navigation methods, enhanced graphics and updated resource lists.
