Good book, summarize the current crisisVon Benjamin VigierAlthough it might seem by the title that the vision will be too simplistic (EU=trouble) the analysis is correct and the explanation is understandable by anyone... it is presented with good illustration which makes it fun to read.0 von 0 Kunden fanden die folgende Rezension hilfreich. Comic EdutainmentVon SunInHHVery nice read. I am glad to have bought the book. It gives a fun overview about Europe's history and the development of the current and ongoing crises. The comics are very well made and entertaining. The

price is worth it!

Kurzbeschreibung When the middle class stars in a horror film, Europe trembles. When Europe directs a horror film, the middle class trembles. Do we know how to recognize our oldest fears? Where are the monsters that want to suck our blood? And worst of all... what the hell does it mean to be Europeans? Aleix Sal broadens his horizons and leads us on a safari across the European Union, a wild and untamed territory where not even God knows which way the wind will blow. illustration and design: (c) Aleix Sal
