an American author it has a US slant on it (e.g box office takings of films are all in dollars and release dates are different too). Otherwise, I find the little snippets of fun information about the films he's worked on very interesting.0 von 0 Kunden fanden die folgende Rezension hilfreich. Not BadVon Ein KundeThis is an awesome book with a lot of info for a small book. The draw back is the beginning is hard to get into, the lack of photos and that fact that they're black and white, and that it's more about McGregor's movies, etc. instead of McGregor himself. Not great, not bad, but lots of info.0 von 0 Kunden fanden die folgende Rezension hilfreich. A very good and interesting bookVon Ein KundeThis is a really good book. It's very informative. Not only does it give information about Ewan but also about his movies which is nice when trying to convince one's mother to let them see a movie. It wasn't written in American english but not hard to read. It was a good book.
