folgende Rezension hilfreich. Sehr gut Von Caterina Ganssmann Sehr interessant Buch. Ich habe sehr gerne gelesen und kann weiter empfehlen. Das Buch ist eine Reise in sich selbst.

Kurzbeschreibung This is the story of a search for the magical and profound amidst the pressures and distractions of the modern world, a chronicle that includes a rich store of reported experience in higher states of consciousness. The trail leads through strange territory. The author was, in his own words, a reckless individual with many failings, driven by things he did not understand. His journey encompasses childhood hopes and fears, love won and lost, alcoholic excess and psychedelic drugs. He vividly portrays the extraordinary properties of LSD, charting initial wonder and revelation and ultimate frustration and disillusionment, before telling of his first encounter with a most unusual yogi lady. The book gives a candid account of the astonishing things he learned and experienced in her company over a period of many years.
