Very helpful for all visitors of KyotoVon Ein Kunde'Exploring Kyoto' gives very detailed informations about many 'secrets' of the wonderful city of Kyoto. It's very helpful to everybody who wants to spend some days (or months ...) away from the touristical mainstreams and who wants additional information about the sights which ist not given by any non-Japanese guidebook or leaflet. 'Exploring Kyoto' may not substitute a usual guidebook because you might loose the overview and get lost in the huge amount of detailed information. But it's a very recommended add-on. And at least

with its detailed and actual maps you won't get lost on your trips at Kyoto!
