**Von Jeremy E. Baker : Failing College in Five Easy Steps: Your Guide On What Not To Do (eBooks-Press.com College Survival Guide Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Failing College in Five Easy Steps: Your Guide On What Not To Do (eBooks-Press.com College Survival Guide Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very helpful and enjoyable to read!Von Arc Pose, LoFirst of all, I very much enjoyed the style this was written in - I enjoy seeing insider perspectives of people toiling in education. The book takes a humorous approach, which I find

refreshing, considering the unpleasant nature of its subject matter. That said - this book was a great help to me - I'd been stuck studying something useless for too many semesters but then I discovered this book, failed and regained my freedom! However, I'm subtracting a star because I occasionally got the feeling that the author was actually encouraging the reader to stay in school. I guess a bit of a pro-education bias is to be expected, however if you buy this book based on the title alone, you might be in for a mild surprise. Well worth the price.

**Kurzbeschreibung** Most students spend quite a bit of time focusing on what is needed to succeed, but they very rarely think about what it takes to fail. The author utilizes his own teaching experience to point out the most common causes of failure for college students. While written in a humorous way, the message is critical: you must learn why people fail to avoid it yourself.
