A Broader Vision of Education in the Church Von Ein Kunde This book provides an especially excellent overview of the different concepts of curricula, including a history of different definitions and the recent history of the broadening concept of what it is. Harris' vision of teaching encompasses a wide scope of the church. She helps you to see curricula

for education not just in books, but in people, worship, group interaction, meetings, and in fact, any aspect of church life. She identifies the present state of education in the church as an in between time, on the edge of a new, holistic view of education in the Church.0 von 0 Kunden fanden die folgende Rezension hilfreich. Teaching the Bible to Adults and YouthVon Rev. Donna MorleyDick Murray's book, Teaching tthe Bible to Adults and Youth, presents a wide expanse of ideas and possibilities in Bible study. In this book, an educator should find an array of scenarios to open the Bible up to people. His comments on how Biblically illiterate adults and youth have become in our society are right on. He further commented on how we learn the Bible in seminary (limited as it may be), but we learn to teach from teachers.0 von 0 Kunden fanden die folgende Rezension hilfreich. All curriculum, all the time!Von Rev. Donna MorleyCalls for one to look at curriculum in a whole new light. Curriculum is more than the printed page. The entire experience of 'Church' in Harris' view is curriculum. She includes a discussion of the multiple meanings of curriculum and curricular challenges.
