The Challenge of Life Von CM83 Henri Nouwen opens the eyes of our heart, soul and spirit in this book. His views on life and our path challenge us. I found this book breathtaking and was not able to put it out of my hands before finishing it. It was helpful to see the different shades and ways of power. It made me think about my own behaviour and when

reading about Henri Nouwens experiences with the handicapped brothers and sisters, my heart was changed. I was made to think about my own weakness and what it can mean to finish this life. I was challenged to think about where my life leads to and what the last steps of my pathway could mean. A book that will last in my thoughts for some more time- even after reading it I am not done with it. A true spritiual nourishment and challenge.
