ReeseIf you're a Pre-Tribulation "Secret Rapture" fanatic, lookout...this book will send you away screaming and "writhing" in pain. Gundry delivers the "hydrogen bomb" that totally vaporizes the "Pre-Trib" position. If you think that Jesus is going to miraculously translate the saints before the Great Tribulation so as to avoid persecution, I'd suggest you read this book. I also liked Gundry's earlier book "The Church And The Tribulation." Get them both, read them and then go help stamp out "Commercial Christianity"- that is the kind that delivers all the sizzle without the steak. Jesus never promised a crown without a cross.0 von 0 Kunden fanden die folgende Rezension hilfreich. This book destroys the pre-tribulation rapture theoryVon jbw@zebra.netThis book answers all the worn out theories that are put forth by the hyper dispensationalists to get the church off the earth before the tribulation begins. Gundry's book lines up with what Christ and all the Apostles wrote and preached concerning the Second Coming of Christ and the rapture of the church. It is a book that is a "must read" for all Christians as we approach the last days. Gundry does not give you what he thinks, but what saith the scriptures. There is no book on the market today that comes as close to the truth about the second coming of Christ and the rapture of the church then Gundry's'. Don't waste your money buying the TV preachers books or tapes, get Gundry's book and then you will be prepared for the last days. Arthur L. Robert Gundry showcases his considerable eschatological expertise in point by point refutations of common pre-trib arguments that are often taken for granted as being true. But no matter what your stance on the rapture is, this book should be on your bookshelf. Compare your own positions with those taken in this book - examine yourself to see whether you are in the faith - and let iron sharpen iron. This book is a wealth of much needed scholarship in this area written in a language that everyone can understand.

Kurzbeschreibung"History established the pattern through world floods, Egyptian plagues, tribulations of all kinds. God leads his people through life's disasters, not around them. First the Antichrist rejects the pretribulation rapture scenario that God will open an escape route so Christians will be spared persecution. Rather, in a complex chain of events Christ will gather the church out of the world only after seven years of intense suffering, when Christ returns to rule. In this close study of church history and debated Bible texts, Bob Gundry shows that the pretribulation rapture is a recent innovation. It is wishful thinking that came to grab the pre-millennial spotlight. But serious scholars are backing away. It just doesn't accord with what the Bible says. In First the Antichrist, Gundry lays out a more biblical (and accurate) picture. First the Antichrist is a much needed contribution to apocryphal and pre-millennial prophecy studies."--Midwest Book Kurzbeschreibung"History established the pattern through world floods, Egyptian plagues, tribulations of all kinds. Whatever your beliefs on the timing of Christ's return--whether you are uncertain or think it will occur before the period know as the tribulation, in the middle of this period, or after it--you should examine "First the Antishrist" and the biblical evidence it presents.
