which is good reading for RVers, Von Ein Kunde First We Quit Our Jobs, is a chronicle of a RVing couple who took a four month trip starting in New York State, across country, into Canada, north to Alaska, south through coastal Canada back into the lower forty-eight, then east, southeast and northeast and back to New York. For those of us who have been RVing and been on the road this grand trek might not seem so unusual. For Marilyn Abraham and her husband Sandy this trek was their introduction to their motor home. It was their first experience. Until they took off that July morning they had never been in an RV before! As the title states, first they quit their jobs, gave up their life in the fast lane and traded everything in for life in a twenty-nine foot Winnie. Some of their experiences we may take for granted. For example the friendliness of people they meet in their travels and at campgrounds was surprising to them. A good book for all RVers who take to the open road and might consider being full-timers. 0 von 0 Kunden fanden die folgende Rezension hilfreich. You touched my heart ! Von Ein Kunde I first saw Marilyn and her husband on a talk show in Pittsburgh. Since I have always wanted to drive an RV to Alaska, I bought this wonderful book and read it in one afternoon. I laughed, I cried and was deeply touched. If they hadn't gone on this trip of miles and of the spirit, I believe that they would have died years before anyone put them in a cemetery. I loved her touching stories of the people they met along the way, but I feel that these people have touched them instead. I couldn't put the book down; I didn't want them to come back to the beginning and I'm glad to hear that they have gone back to their roots in Santa Fe. What a wonderful book. Thank you for sharing your life with me. You have lifted my spirits!! When my trip to Alaska comes about, I will take your book with me, simply to relish your experiences as I experience my own. God Bless and never forget, "Hey, Bear" !! Feel free to write if you so choose. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Spiritual Renewal in a Winnebago? Von Mark Wiczorek I picked up this book because that's just what I wanted to do... Quit my job. Well, a quit my job. I can't afford a Winnebago, but I can always dream. This book reads much like a good letter, or a good phone conversation. That is to say, they're honest about just about every aspect, from any mechanical troubles they have, to the peace of mind they seem to have found on the road. This book is immensely (sp?) readable. I recommend it to anyone who wants to change their lifestyle. Anyone who's sick of their job and needs a change. I recommend this book to anyone... I also recommend "postcardsfrom.com" which has a similar feel to this book.

Kurzbeschreibung What happens when two executives leave their jobs, friends, and the city behind to hit the road in a twenty-seven foot RV? America the beautiful becomes a place of sights, foods, people, memories, and a little wisdom. After fifty-two combined years in the corporate fast lane, Marilyn Abraham and her husband, Sandy MacGregor, embarked on an adventure that every work-driven professional dreams about but hardly ever has the courage to realize. They quit their jobs and hit the road in order to retrain themselves in the art of living. For almost a year, the couple traveled nearly 20,000 miles to thirty-one states, including Washington, Montana, Colorado, New Mexico, Tennessee, and through seven Canadian provinces to Alaska, in the hulking RV they named Sue. More than just a travelogue, First We Quit Our Jobs is the story of recreating one's life and discovering what is real, what is true, and what is important. Filled with visions of Americana, this personal and touching memoir traces the author's search for meaning in this modern day.. de Just a few months shy of his 20th anniversary at RCA, Sandy MacGregor got his pink slip. Once the shock wore off, he and his wife, Marilyn J. Abraham, then a vice president and editor at Simon Schuster, did what any rational couple with more than fifty-two combined years on the corporate fast track would do: they traded in the boardroom for the open road and embarked on a four-month trek across America. First We Quit Our Jobs is Abraham's account of their odyssey. Granted, a Winnebago was not their first choice when the bad news came, but after an attempt to buy a small publishing company in New England fell through, MacGregor and Abraham packed their bags and went in search of their destiny. Part travelogue, part meditation, and part guide to "the road not taken," First We Quit Our Jobs is a charmingly written chronicle of discovery. As MacGregor and Abrahams began to depart from the way they'd always assumed their lives would go, they found the freedom to shape the way they'd like their lives to be.. com Just a few months shy of his 20th anniversary at RCA, Sandy MacGregor got his pink slip.
