book is indispensable for a Beartooth-Absaroka hiker! Von Ein Kunde Sometimes the hardest part of getting to Beartooth-Absaroka lakes is finding the trailhead. Great detail is given by Pat Marcuson in traveling this incredible area. After 50/60 trips into this wilderness I wouldn't be without this book! I met Pat several times in the late seventies and his knowledge of this area is quite remarkable and reflected in this book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Absolutely as advertised-incredible detail Von tgallery@ford.com I've been there and the few lakes I've experienced we're exactly as described in the book. You can't value the information here! Great job.

Kurzbeschreibung This guide answers every angler's questions about stocking schedules, fish abundance, precise location coordinates, elevation, surface area, and maximum depth for more than 1,000 lakes and streams in the magnificent Beartooth and Absaroka Mountains on the Montana-Wyoming border. Many of these waters teem with colorful fish; others are barren. Some are easily accessible; others are tough to find. This book gives clear descriptions of trails, distances, landmarks, terrain, and even availability of firewood. Each page is enriched with first-hand descriptions, advice, humor, and knowledge of the area's history, including the Crazy Mountains.
