Kurzbeschreibung There is something magical about macro and close-up images. They provide a glimpse of a world few ever see and fewer still understand. But there is a reason these images come mostly from master photographers: this type of work requires a high level of technical ability and creative vision. In *Flash Techniques for Macro and Close-Up Photography*, acclaimed photography instructors Rod and Robin Deutschmann show readers the ins and outs of creating outstanding images of small subjects. Pressestimmen "Photographers and instructors Rod and Robin Deutschmann explain how to photograph small subjects for macro or close-up images using an off-camera flash." -- www.BookNews.com
