Kurzbeschreibung Strap up for Flight 103....The Most Terrifying Ride in History. In the Gulf, an Iranian passenger jet is shot out of the sky...and no one knows why. In Beirut, four hostages are taken prisoner...and no one knows why. Over Lockerbie, Flight 103 is brought down in the worst terror attack for years...and no one knows why. What links all three events? Sam Woolfman is about to find out. And the former Mossad agent is about to be plunged into the most deadly conspiracy of his career. From London to Tehran, from the Vatican to the Pentagon, dark forces are at work. As Sam Woolfman starts to unravel the mystery, a global power-play of terrifying proportions is set in motion. On the run, Sam knows that the information he has uncovered may cost him his life - and the life of the woman he loves. Drawing on real events, Flight 103 is a gripping conspiracy, action thriller, perfect for fans of Robert Ludlum, Tom Clancy and Frederick Forsyth. It will keep you hooked from the first page to the last. Juval Aviv's thrillers have been widely praised. 'Hits you like a fist in the face - this is what it is really like to operate beyond the law' - Chris Ryan 'A highly charged fictional debut' - The Daily Mirror. 'An entertaining blockbuster' - The Independent. Juval Aviv is President and CEO of Interfor, Inc., an international corporate intelligence and investigations firm. Before founding Interfor, Juval served as an officer in the Israel Defense Force (Major, retired) leading an elite Commando/Intelligence Unit and was later selected by the Israeli Secret Service (Mossad) to participate in a number of intelligence and special operations in many countries in the late 1960s and 1970s. In 1984, a true account of one mission was published entitled Vengeance which inspired the major motion picture, Munich, directed by Steven Spielberg. Endeavour Press is the UK's leading independent publisher of digital books.
