Von Dave Hughes : Fly Fishing Basics before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fly Fishing Basics:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich.
Excellent reference for the beginning fly fisher. Von Ein Kunde This book is an excellent reference for the beginning fly fisher. The discussions on equipment, fly selection and how two's on rigging flyfishing equipment, knots, reading streams and discussions on insect entomology are well written and explained in a manner which makes them easy to

understand and remember by someone who is just getting into fly fishing. The section on how to cast is also accurate and well written. However the best way to jump start your casting knowledge would be to enroll in a one day class at a local fly shop or coax an acquaintance who knows how to show you on your lawn. All in all this book is a very good reference material and will give you everything you need to know to begin catching fish on the fly and help you determine whether you want to go further in the sport.

Kurzbeschreibung Fundamentals for the beginning fly fisher. Tips on rod and reel selection, tackle and tying techniques, basic and advanced casting methods.
