Caffo's Aufenthalt in Russland Von Rudolf Krakora Nachdem ich mich selbst vier Jahre in Russland aufgehalten habe und Ron persönlich kennengelernt habe, interessiert mich seine Sicht der Dinge. Ein wunderschönes Buch und gut zu lesen. Ich freue mich schon auf meinen nächsten Besuch in diesem wunderschönen Land und hoffe, mich wieder einmal mit Ron an einen Tisch setzen zu können.

**Kurzbeschreibung** The adventures of two middle-aged Americans with no foreign language or international experience who left the U.S. behind to witness first-hand the breakup of the Soviet Union and all that followed. The story chronicles forging a life in Siberia and other remote locations in Russia, and the resulting bonds with the Russian people and their way of life. Coupled with this are the memoirs of three treasured Russian co-workers, which provide a unique window into the Soviet Union's downfall and the changes and associated impacts that continue to result. Reflections upon personal views and aspirations—from both our and our Russian colleagues' perspective—on Russia's evolving way of life during such a fertile yet tumultuous period completes the narrative. The lives of ordinary people undergoing such extraordinary times, as told by those who experienced it first-hand.

**About the Authors:** Ron and Debbie Caffo left Russia in 2007 and have remained retired since then. At present they live in central North Carolina near their older son and his wife and first granddaughter. Considerable time is also spent with their younger son, his wife, and their other two granddaughters in Maryland. International travel and adventure remain a major focus as well. Married in 1968, their life together now spans six decades.
