Von Nancy Friday : Forbidden Flowers: More Women's Sexual Fantasies before purchasing it in order to gage whether or not it would be worth my time, and all praised Forbidden Flowers: More Women's Sexual Fantasies:

Kundenrezensionen Hilfreichste Kundenrezensionen 3 von 3 Kunden fanden die folgende Rezension hilfreich. Am I allowed to say I love this book? Von Ein Kunde Am I allowed to say that this book gets me off? No? Am I allowed to say that this book could be a marital aid? No? Am I allowed to say that this collection of women's sexual fantasies will teach you things about women that you never even dreamed about? Well, I guess you can delete my review. By the

way, this book is slightly better than "Secret Garden" (the contributors are more open after having read that book) and "Women on Top" (which was a bit too self-conscious) and "Men in Love" (because women do this fantasy thing better than guys)² von 2 Kunden fanden die folgende Rezension hilfreich. This book set a stage for me! Von Ein Kunde I picked up this book at the airport to read on my flight. While almost half way through, the man next to me wanted to know what I was reading. I told him. While I left my seat - he read it and didn't want to give it back. We finally started discussing the theory of fantasies - mostly him asking me questions- is this really what women think? And me answering. Needless to say - we both learned a lot and these books will teach a lot. Fantasies have become a most talked about subject.⁴ von 5 Kunden fanden die folgende Rezension hilfreich. Forbidden Flowers Von Lee Reynolds If you're a man who would like to understand how women think and feel about sex, this book, along with the others in its series, is a must have. Contrary to popular belief, women feel just as much lust as a man. Most are highly selective about who they have sex with, but not because sex interests them any less. Unlike a man, the availability of sex is not usually sufficient reason to have sex, but don't think they aren't daydreaming about it. Some of the fantasies are strange and even disturbing, but I think that is to be expected. The things a person fantasizes about aren't necessarily the things they would want to do in real life. In any case this is a very good book and one I'd highly recommend for anyone seeking to understand human sexuality.

Kurzbeschreibung Since the 1968 publication of Nancy Friday's outspoken erotic masterpiece, My Secret Garden, women's sexual lives have undergone a revolution - and so have their fantasy lives. No longer ashamed to express the wild, exciting and sometimes outrageous thoughts that bring them so much sexual pleasure, the women who reveal their sexual fantasies in Forbidden Flowers are even more explicit than those in Nancy Friday's first international bestseller and iconic erotic book. Forbidden Flowers is a celebration of a new sexual and social freedom, where today's women rejoice in the awareness of their own inner erotic lives. Nancy Friday's ground-breaking work adds an exhilarating new freedom to the ever-changing relationship between the sexes; it is a revealing and empowering insight into female sexuality and psychology. **Pressestimmen** "San Francisco Chronicle" Nancy Friday must be the most understanding sexologist in the country. **Werbetext** Bestselling erotica writer Nancy Friday's second collection of women's secret sexual fantasies. This classic erotica, from the author of Women on Top, written in the 1970s - an era of female sexual, social and political awakening - is a must-buy for fans of the record-breaking bestselling erotic novel Fifty Shades of Grey.
