Von Tony Ross : I Want My Potty! (Little Princess eBooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised I Want My Potty! (Little Princess eBooks):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Just right for toddlersVon CatherineWe discovered this story in a large compilation book I bought just as my son was beginning toilet training. This story immediately became his favourite and he asked for it over and over, able to relate completely to the little princess' ups and downs with toilet training, and her eventual little accident on the floor. The sense of humour is exactly right for two and three year olds and our big story book is still known as "the potty book".0 von 0 Kunden fanden die folgende Rezension hilfreich. Is it a cup or a potty?Von Ein KundeMy 21-month-old daughter seems to like the story and that it is a princess learning to use the potty (since she is too), but the potty doesn't look like a potty. She thinks its a cup. Now she wants to take my coffee up to the potty and use it.0 von 0 Kunden fanden die folgende Rezension hilfreich. Both my children I love this book!Von Ein KundeThe illustrations are nice. There are only a few words on each page, so it is a quick read. The little princess is really trying, but sometimes you just can't make it to the potty in time that's okay.

Kurzbeschreibung "Nappies are YUUECH!" said the little princess. "There must be something better!" At first the Little Princess thinks the royal potty is even worse than nappies but she soon learns to love it -- even if it isn't always there just when she needs it! Pressestimmen "A must for any parent and child." The Guardian "Hilarious and a godsend to parents." The Daily Mail "The Little Princess has huge appeal to toddlers and Tony Ross's illustrations are brilliantly witty." Practical Parenting Werbetext The classic Little Princess tale about the perils of potty training, now available as a board book!
