Sci-fi in the 19th centuryVon ({{|}})One of Jules Verne's shorter books, this is the story of the year 2889 from the perspective of Verne's generation. This is a funny book, as many of the amazing, futuristic inventions for the 19th century world are now obsolete for us. Still, many of the dreams of progress described, such as human hibernation, we now know are impossible. You can almost look back at the future when reading this book! Enjoy!0 von 0 Kunden fanden die
