KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A good tool for anyone who wishes to help JW's.Von Ein KundeThis book will give you a remarkable look into their history. Jehovah's Witnesses themselves are not allowed to read "apostate" material (anything not approved by the JW

organization) so you will only distance your self from a JW by showing this book to them. Aside from the introduction and appendix, the book is made entirely of quotes and paraphrases directly from the Watchtower and other JW literature. Their own past convicts them of serious error. The best thing to do is write down some of the references within so they can look it up for themselves at their local Kingdom Hall. The first part of this book is a chronological listing of "errors" in the Watchtower and Awake!. Some of the listings aren't errors but they contradict things said later on. My favorite error is: from a Watchtower published in the first decade of the 1900s. It says that White couples that live in China will produce Chinese children due to the effects of the soil and climate. (!) This from the "mouthpiece of God". I'm sure they would agree now that it was an error, but how can God be in error? The second half of the book is a listing by subjects and in this section quotes from all JW publications are included as well (not just Awake and Watchtowers).

Kurzbeschreibung Teachings of the Jehovah's Witnesses and how they differ from historic Christianity are documented in this study of Watchtower publications from 1879 to 1989. Helpful for having profitable discussions with Jehovah's Witnesses.
