Kurzbeschreibung We've all been there... we want to capture the picture of that special individual. We do our best to

pose them just so and snap the shot. We think we've done a pretty good job - until we get home and review the picture. Disappointment (and maybe a little embarrassment) sets in. And we don't even know what went wrong! Whatever the reason, it is often more challenging to photograph one person than a group. Whatever the reason, when you start with 271 sample poses to choose from, and more than 125 photography tips on how to make your subject look their best ... the result is inevitable. Goodbye snapshot. Hello portrait. As Paul Strand so wisely said: "It is one thing to photograph people. It is another to make others care about them by revealing the core of their humanness." Learn the secrets professionals use to take winning portraits... without the necessity of expensive equipment. You'll be amazed how simple it is to take better pictures of individuals.
