Toller Stil, gute UmsetzungVon mrwIch kann dieses Buch alleine wegen der schriftstellerischen Leistung nur empfehlen. Der Titel ist leicht verfehlt, da es nicht nur um die Internship, sondern allgemein um die Lebensphase des jungen Arztes

geht. Trotzdem lesenswert.

Kurzbeschreibung "In Jauhar's wise memoir of his two-year ordeal of doubt and sleep deprivation at a New York hospital, he takes readers to the heart of every young physician's hardest test: to become a doctor yet remain a human being." Time Internist Dr. Sandeep Jauhar's story of his days and nights in residency at a busy hospital in New York City, a trial that led him to question his every assumption about medical care today. Residency and especially its first year, the internship is legendary for its brutality, and Jauhar's experience was even more harrowing than most. He switched from physics to medicine in order to follow a more humane calling only to find that his new profession often had little regard for patients' concerns. He struggled to find a place among squadrons of cocky residents and doctors. He challenged the practices of the internship in The New York Times, attracting the suspicions of the medical bureaucracy. Then, suddenly stricken, he became a patient himself and came to see that today's high-tech, high-pressure medicine can be a humane science after all. Jauhar's beautifully written memoir explains the inner workings of modern medicine with rare candor and insight. Pressestimmen Very few books can make you laugh and cry at the same time. This is one of them. Sandeep reveals himself in this book as he takes us on a wondrous journey through one of the most difficult years of his life. It is mandatory reading for anyone who has been even the slightest bit curious about how a doctor gets trained, and for physicians, it is a valuable record of our initiation. Sanjay Gupta, CNN medical correspondent and author of Chasing Life Intern will resonate not only with doctors, but with anyone who has struggled with the grand question: what should I do with my life? In a voice of profound honesty and intelligence, Sandeep Jauhar gives us an insider's look at the medical profession, and also a dramatic account of the psychological challenges of early adulthood.
