Von Phillip C. Schlechty : Inventing Better Schools: An Action Plan for Educational Reform (Jossey-Bass Education Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised

Inventing Better Schools: An Action Plan for Educational Reform (Jossey-Bass Education Series):

Kurzbeschreibung Schlechty shows both educators and parents how to envision reform and design quality educational systems. He explains how the visioning process must be rooted in real shared beliefs, how mission statements must unpack visions into concrete goals that are connected to action, and how the results of reform can be usefully assessed. Drawing on the author's vast experience in the day-to-day work of implementing school reform, *Inventing Better Schools* offers new approaches for setting standards and ensuring accountability--and includes samples of actual mission statements and strategic plans of successful school districts.

Pressestimmen "Schlechty offers a clear and concise vision of systemic change to address the problems with education." (The School Administrator) "Schlechty marshals readers through the ideas-to-action labyrinth of improving schools. . . . A worthy successor to his earlier work." (The American School Board Journal) "A book filled with hope. . . . Not all reformers in the country will agree with Schlechty's solutions or even the problems, but they will be the richer for having read what he has to say on the subject." (Louisville Courier-Journal) "Schlechty adds a refreshing voice to the ongoing how-to-fix-our-schools debate. . . . Highly recommended." (Library Journal)-Schlechty offers a clear and concise vision of systemic change to address the problems with education.- (The School Administrator) -Schlechty marshals readers through the ideas-to-action labyrinth of improving schools. . . .
