Iron Fist with Dark Knight origin ... meehhVon Frobin JojoIts a new origin story for Iron Fist - and not a very original one: its very much the Dark Knight origin adapted for Danny Rand. It somehow doesn't fit for the character. I didn't see him that dark.For me its written for the big screen, it feels like a movie. It has all story elements for a movie. But therefore

its also very predictable. You can watch/ read these kind of new origins everywhere now, its a trend (same with Green Arrow). I don't really like the new origin, but I also have to admit, its well written and an exciting story from the beginning.
