An excellent selection and introduction to the subject Von Ein Kunde Professor Nasr's works on Islamic Islamic subjects is generally characterised not merely by their academic and still hospitable narrative style but further by a in depth understanding and experience of spirituality as such in its most universal and applicable sense. In the book "Islamic art and Spirituality" Nasr cover the highlight themes of traditional art, architecture, calligraphy, poetry, esoterism, piety,

etc, as it developed in Islamic lands. I warmly recommend the present work both to students of religious studies as well as religious seekers from all traditions.
