KurzbeschreibungAffirming a conscious decision to really live life, Jack risks all for adventure, sex and an addiction to skiing. At the same time he maintains the ability to create very successful businesses while engaging in scandalous behavior. It reads like fiction until the reader realizes it's true. A book of a life many would like to live but most will only read about. Honestly written based on memories with over forty photos and comments by those who were involved. This is an autobiography of a life lived differently!KurzbeschreibungAffirming a conscious decision to really live life, Jack risks all for adventure, sex and an addiction to skiing.
