KundenrezensionenHilfreichste Kundenrezensionen4 von 6 Kunden fanden die folgende Rezension hilfreich. ein buntes BuchVon BertaDieses Buch kann ich nicht weiter empfehlen. Auer Allgemeinweisheiten zur Aquarellmalerei,wie sie in allen diesen Bchern stehen, ist nicht viel Wissenswertes enthalten. Die Erklrungenzum Malen mit Salz und Frischhaltefolie sind nicht wirklich etwas Besonderes und ansonstend nur bunte Bilder von angefangenen Malereien enthalten. Die Ausgabe fr dieses Buchkann man sich wirklich sparen.0 von 0 Kunden fanden die folgende Rezension hilfreich. Stunning Book!Von Colorful GirlJean Haines is one of my favorite watercolorists in blog land. She shows stunning examples of her work in this book. I recommend her first book too. I wish she would have shown more finished works in this second book as she gives many examples on how to start a painting or says it is just a study but from my experience in watercolor classes it always seems much easier to start a painting with the first few washes, etc. than to figure out how and what to add to call it a finished piece.I would have loved to see some of her so-called studies brought to the finished phase so we could see just how much she adds or what she does to call

it a finished piece. I still give it five stars as what she does show is stunning and interesting.0 von 0 Kunden fanden die folgende Rezension hilfreich.
