Feeling nostalgic about soviet Russia?Von CustomerJourney into RussiaIt was exciting to read this book, even though it is now 50 years since it was written. It brought back very vividly the memories I had of my own personal trip to Russia. I was particularly impressed with the analysis of communism, and the humanity with which he relates the events and

feelings of what must have been an incredible journey across this country. What Laurens Van Der Post lacks in poetry, he amply makes up for with his sharp observation of human nature and social systems.

Kurzbeschreibung Laurens Van Der Post takes us behind the iron curtain of Soviet officialdom in a quest to discover the real Russia - a land full of enigma and secrecy, but treasured by its ordinary people.
