**Von Mary Austin : The Land of Little Rain (Classic, Nature, Penguin)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Land of Little Rain (Classic, Nature, Penguin):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. `The Country of Lost Borders"Von Ein KundeMary Austin's brilliant essay on a small corner of California is the subject of this breathtaking book. In prose of unvarying beauty and satisfaction she paints a stunning portrait of high mountains

and deepest valleys, describes in vivid detail the lives of the native Indians and Mexican immigrants, and reminds her readers that there is life and vitality to be found in these trackless desert regions. I believe you will agree with her own motivation for writing "The Land of Little Rain" after reading it: "...as one lover of it can give to another." I von 1 Kunden fanden die folgende Rezension hilfreich. Didn't do much for me Von Miranda There are few books I dislike, but this book was one of the few that came close. While I enjoyed some of Austin's imagery, it seemed she went around in circles and never get to a destination. It was like reading a bunch of settings, but never getting any plot. The highlight of the book was Seyavi, the basket maker but the book itself seemed to be lacking. If you're looking for nature writing, read Linda Hogan's "Dwellings." It's a lot more personal.

Kurzbeschreibung Between the high Sierras south from Yosemite east and south over a very great assemblage of broken ranges beyond Death Valley, and on illimitably into the Mojave Desert is the territory that Mary Austin calls the Land of Little Rain. In this classic collection of meditations on the wonders of this region, Austin generously shares such news of the land, of its trails and what is astir in them, as one lover of it can give to another. Her vivid writings capture the landscape from burnt hills to sun-baked mesas as well as the rich variety of plant and animal life, and the few human beings who inhabit the land, including cattlemen, miners, and Paiute Indians. This Modern Library Paperback Classic is set from the original 1903 edition. Pressestimmen ""The Land of Little Rain "was a book well worth awaiting. . . . a collection of essays about the Southwest, beautifully written." Kurzbeschreibung Between the high Sierras south from Yosemite east and south over a very great assemblage of broken ranges beyond Death Valley, and on illimitably into the Mojave Desert is the territory that Mary Austin calls the Land of Little Rain.
