call of your dragon and be the dragon rider you've always been

Von Kerstin I read the German version of the dragon guide some time ago and I wanna share my experience for the English speaking interests. With my dragon my whole life has changed completely. It came into my life unexpected and I didn't know, what this means. I felt the immense force and transformation in my life and I started to remember myself through this. And through this book, the workshops and meditations of Christine Arana I realized what this all is meaning, what is happening and how I can handle with it. It brought me back a deep forgotten part of myself. The dragon is a symbol for a field of energy that is within us and part of us. When you are connected to this field, to your dragon, then this energy will act for you. And you can't find your dragon, your dragon will come to you, when the time is right. It carries a really strong force with it. The force for transformation and change in life. It challenges you, to get over your limitations and to unfold your deep inner being. With this book you can immerse into this world of dragons and be deeply moved by it. And you can find again a part of yourself, remembering something that has been part of you for a very long time and refresh this old bond of deep love. Find your personal dragon and let it be a part of your life again. It will teach you and challenge you. And it will force you to change your life and yourself. It will let you feel his deep love to yourself and it will guide you to your own heart, power and magic. The dragon is pure love and magic and it will bring this to you. You will overcome your dark parts, your limitations and light up in your true being. With this book you will first get to know some general things about dragons, Arana's way to and with her dragon, followed by a meditation to meet your dragon and to refresh the old heart bond. Then the different dragons are described, the color and what it stands for. That helps you to realize your own potential, skills and your own being. Hear the call of your dragon and let the old bond be awoken alive again. It reminds you of what you are. Be the dragon rider that you've always been and bring the change within you and in the world.

Von GM Schneider Being connected with my dragon, with this powerful and loving energy, is a mighty feeling I can't describe with words. I remember very well the day of the workshop with Christine Arana, when my dragon came to me: In the beginning of the meditation for finding the personal dragon I was rather sceptical; then I stopped thinking and I was only watching what happened - suddenly my dragon appeared, perfect clear, I was overwhelmed! Since this moment, he is my wonderful faithful companion. Some weeks later I read the German version of "The Little Book of Dragons". In this dragon guide I found exactly the description of my dragon, his colour, his figure with all details, which I have seen in the meditation - I was deeply impressed! The explanations, Christine Arana is giving in this book, are very helpful to find out more about the different dragons, and I recommend the dragon guide to all who are interested in dragons or feel connection to them.

Von DieMncherin Travelling since some years on the dragon line through UK, built up a deep connection to dragons and saw how they watched me. Some years ago I had the chance during my visit to detect the crop circle of 13 dragons with a very strong energy. They were back! I would have been stay forever. As I came last year back from my journey I found this amazing book (in German) and the cards. Meet only some days later Arana in a workshop and the dragon which is on my side currently - or maybe forever ;) Like the book and cards really much. Each card is unique. Love to take a card every week. The time has come to bring the dragons back into our visible world. Many dragons are waiting - for you...

Kurzbeschreibung When you are touched by a dragon, you feel the depth of its love... This incomparable energy allows us to find the place in life that is meant for us, as Christine Arana Fader, the dragon woman, powerfully shows with these entrancing stories from her daily life. Granting us a glimpse of the mystical world of dragons, she will help us to get to know our own dragon, a close personal companion who will share its invincibility, its wisdom and its magic with us....and you will grow as a person and find your own path.

Pressestimmen Christine Arana Fader's book about DRAGON MAGIC leads straight to the very soul of magic. This book is equally impressive and enchanting, as it conjures the amazing power within Dragon lore. I would wholeheartedly recommend it to anybody who wishes to find a Guardian of this nature, those who know the wisdom of the Cosmos. For the souls that seek to be a Dragon Rider are the oldest of the old, with a divine wisdom that has existed since the beginning of time. This book awakens that special knowledge!--Stewart Pearce, Angels of Atlantis and Angels of Atlantis Oracle Cards
