A little review of a Lucky Girl !Von AmandaTHE LUCKIEST GIRL Beverly Cleary 1996 Avon Books The Luckiest Girl is a great book. It is a book for people that have had trouble breaking up with their first love and are having trouble with their parents not listening to them. Shelly's mother wants her to buy her a pink rain coat with a black velvet collar for school, but she wants a yellow slicker. Her mother wants Shelly, who is sixteen, to listen to her and she wants her to

wear a pink rain coat. But that wasn't as bad as when Shelly broke up with her boyfriend. Shelly always thought of Jack, even when she was doing the dishes and making her bed. She got upset when he never called her house. She was getting mad and impatient, so she was invited to stay in California with her dad and Pamila, and she did. She met a lot of friends and a new boyfriend, Phillpe. While she was there she became home sick. But this was a problem; she had to say good bye to all of her new friends, and her new boyfriend. She finally got so home sick that she wrote to all her friends and Jack, her ex-boyfriend, that she had missed them very much. She also wrote her mother telling her she wanted to come home. This book was awesome. I really do recommend that you read this book in your spare time so you can find out if Shelly ever goes back home or if she ever gets along with her mother. Read it and find out and you'll be surprised. By Amanda0 von 0 Kunden fanden die folgende Rezension hilfreich. This book is really exciting and fun.Von Ein KundeI love this book. It is a fun, woderful, interesting book! ItTalks about real-life situations based towards teenagers.It also talksabout Love , and relationships.It also proves that kids need a brake from thier "life" for a while.Some things I didn't like about the book were The family that she stayed with were odd. I mean Ironing day! Is that weird or what? the younger girl she stayed with was very rude watching the Shelly on the porch saying goodbye to her date.The other thing I didn't like was she only liked the " popular" boy. When the other guy (s) she meant had alot in common with her , but she took that for granted. I think teens would enjoy this book because it covers all teen problems. It would also be nice for older people It will make them remember how it was when they were younger. I think they should make a sequel to this book.0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun readingVon Ein KundeHi, I'm Anna and I'm going into 7th grade. This book was really good, it's reallistic, and it's enjoyable to read because it was written in the late '50s and there are words like "swell" in it, so that's really cool about it. I read Fifteen, and all the Ramona books [when I was younger, but I still love 'em] and I plan to read Jean and Johnny and Sister of the Bride! Read these books,I'm sure they're ALL great!

KurzbeschreibungFalling in Love . . .Shelly feels as if she's living in a fantasyland. She's spending the school year in southern California, where flowers bloom in November, oranges grow on trees, and lawns are mowed in winter. When the star of the basketball team smiles at her, Shelly feels as if she's been touch by magic. Now she's about to discover the magic of falling in love!A bittersweet story of first love from one of America's most beloved children's authors.Pressestimmen"Sixteen-year-old Shelley latham, in a fit of rebellion against her mother's lack of understanding, persuades her parents to send her to California for the coming school year."-- "ALA Booklist""Ought to be required reading for teenage daughters and their mothers." -- "The New York Times"KurzbeschreibungFalling in Love . . .Shelly feels as if she's living in a fantasyland.
