**Von E. (Edith), 1858-1924 Nesbit : The Magic World** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Magic World:

Parks This book is a collection of short stories, and finding it again has been a highly emotional experience for me. I had read it YEARS ago in the Library when I was but a small child, and loved every syllable of it; then the Library LOST it, and I pined for it terribly. I had even forgotten its title (I

had \*thought\* it was "Nine Unlikely Tales" -- perhaps an alternate title?). Then about eight years ago, as an adult of 32, I FINALLY laid hands on a copy of "The Magic World" once more. Oh my! How I adored reading those old fine magical stories again! How I wept -- WEPT! -- to read all those old stories which I had so long loved and lost and now found again! Who could ever forget such stories as "Accidental Magic", or "The Cat-Hood Of Maurice", or "Kenneth And The Carp", or "Belinda And Bellamant; Or The Bells Of Carrillon-Land"??? This last has a very catchy verse in it ("Out! Out! Into the night!/The belfry bells are ours by right!") which I have never forgotten and which I looked for -- and found -- and triumphantly BELLOWED at the very top of my lungs the instant the book was again in my hands! Ah, me!!! These stories are all "Classic Nesbit", and even if the book is "brand new" to you and not nostalgic as it is for me, it is still well worth the getting, and at a VERY reasonable price! One final note of historic literary interest: the story "The Aunt and Amabel" -- with its train station tucked away inside a wardrobe in a spare room -- was C. S. Lewis' inspiration for setting the land of Narnia inside a similar wardrobe in "The Lion, The Witch, And The Wardrobe". :) 1 von 1 Kunden fanden die folgende Rezension hilfreich. A rather interesting story-line. Von Ein Kunde This is not your usual one-plot story, instead it is a collection of short stories about children who have magical adventures. I think the one called "Justnowland" is the best one but there are some really good ones. Anyone who likes Narnia or Middle Earth will enjoy this, I think.

KurzbeschreibungHardPress Classic Books SeriesKurzbeschreibungHardPress Classic Books SeriesSynopsis This delightful collection contains twelve of Nesbit's most magical stories, both literally and figuratively. It includes such tales as "The Cat-Hood of Maurice," in which a boy learns firsthand about the importance of being kind to animals, "The Princess and the Hedge-Pig," in which the Princess Ozylyza recovers her parents' usurped kingdom with the aid of her true love, "Justnowland," in which a little girl name Elsie saves a kingdom of enchanted crows, and "Kenneth and the Carp," in which a boy is transformed into a carp to retrieve a ring and learns courage. There are useful morals to each story, but they are easily disguised in the enjoyable tales.
