I had a lot of trouble with my undergrad Chem classes which I took about 4 years ago.This book greatly supplemented my knowledge and understanding of Organic and Gen.Chemistry. In my opinion, this book is a great review for MCAT chem and orgo.0 von 0 Kunden fanden die folgende Rezension hilfreich. Don't Bother!!!Von Ein KundeThis is a miserable excuse for a 'comprehensive review' of chemistry for the MCAT. Very little explanation of concepts or even of practice questions. Save your time and money and but the Kaplan or Flowers books for reviewing.0 von 0 Kunden fanden die folgende Rezension hilfreich. A GOOD GUIDE!!!Von Ein KundeI used mcatchemistry book for the Aug. MCAT. It was great! idid well on the test and this book played a good role. The book is agood guide for mcat chem preparation for both

genral organic. *****

Kurzbeschreibung Comprehensive, Rigorous Prep for MCAT Chemistry. The MCAT Chemistry Book presents a comprehensive review of general chemistry and organic chemistry to prepare for the Medical College Admission Test. Part I presents general chemistry concepts, and Part II presents organic chemistry concepts. The review sections are written in a user-friendly manner to simplify and reduce the student's burden when deciphering difficult concepts. At the end of each chapter, practice questions are included to test the understanding of the key concepts. Answers and explanations for the practice questions are provided after the review sections. Illustrations and tables are included wherever necessary to focus and clarify key ideas and concepts. Pressestimmen A Great Book! I am a Pre-Med student and I recently purchased this book.
