Super Geschenk!Von Carolinalch habe dieses Buch verschenkt und es kam sehr gut an.Es sind viele Tipps und Tricks enthalten, von denen man noch nichts gehrt hat, und auch wenn es fr Kinder zu kompliziert geschrieben ist (auch fr Englisch Muttersprachler) , kann man es sicher gut in Beisein eines Erwachsenen gemeinsam erproben.Tolles Buch und absolutes Must-Have fr Wanderer, Erkunder und Entdecker!!1 von 2 Kunden fanden die folgende Rezension hilfreich. Very enticing but leaves a lot open endedVon P KIt is a very interesting and inspiring book. But often it hints at things that could be observed - like lichens and algae growth - and then gives only general pointers to how

they could be used. So it leaves a lot of experimentation to the reader. Still a very interesting and worthwhile book.

**Kurzbeschreibung** Starting with a simple question - 'Which way am I looking?' - Tristan Gooley blends natural science, myth, folklore and the history of travel to introduce you to the rare and ancient art of finding your way using nature's own sign-posts, from the feel of a rock to the look of the moon. In this fully updated edition you'll learn why some trees grow the way they do and how they can help you find your way in the countryside. You'll discover how it's possible to find North simply by looking at a puddle and how natural signs can be used to navigate on the open ocean and in the heart of the city. Wonderfully detailed and full of fascinating stories, this is a glorious exploration of the rediscovered art of natural navigation.

**Pressestimmen** "The perfect book for getting you started on your own adventure" (Sir Ranulph Fiennes) "The Natural Navigator is a wonderfully stimulating book. Tristan Gooley sidesteps technology to celebrate our own powers of observation, and suggests that the art of natural navigation is something we should never have forgotten" (Michael Palin) "Gooley is a fine writer with a philosophical passion for the subject ... his advice is at times glorious in its simplicity and fascinating in its execution ... his advice is so well structured that even enthusiastic amateurs will find plenty to get to grips with" (Laurence Mackin Irish Times) "Wonderful... This is the sort of charming and inspiring book you want to recommend and buy for others. A must for any lover of the outdoors" (Tim Jepson Daily Telegraph) "The best nature writing changes the way you experience the world. Tristan Gooley's The Natural Navigator will teach you how to find your way using not just the moon, sun and stars but spider's webs, tennis courts and even ruts on a track. He throws in entertaining anecdotes from the history of navigation and from his own impressive Atlantic journeys, but really he's giving you an addictive hobby, and a newly refined sense of time and place" (The Sunday Times)
