Von Darren Lewis : The Oncoming Storm (The Baiulus Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Oncoming Storm (The Baiulus Series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great!Von Author Angie MartinA suspenseful YA book that kept me reading until the end. I really enjoyed every aspect of the page. Darren Lewis is a master with characterization. They seemed so real and I felt all their emotions

while reading. Though I was able to follow it okay with it being the second novel in the series, I will definitely go back and check out number one now!

0 von 0 Kunden fanden die folgende Rezension hilfreich. a wonderful storm

Von The Wizard of Oz A tremendous cover wraps around a quite interesting story aimed, in my opinion, at the new adult market. More of a novella than a novel and it hits its intended target bang smack in the middle of the bullseye. It's well-written with plenty to offer. A generally good read.

0 von 0 Kunden fanden die folgende Rezension hilfreich. Good, evil, and talking rabbits

Von Convoke "The Oncoming Storm" is Book 2 in Darren Lewis' Baiulus Series of fantasy novels about a young woman in a world of dragons, magical devices, talking rabbits and mysterious threats coming from a powerful institute with dire designs and veiled purpose. This YA+ book has facets that will enthrall children while entertaining adults.

In Book 1, Vengeance of Shadows, our heroine Ellie escapes the evil Isabelle but receives dire warnings.. In Book 2, The Oncoming Storm, Ellie returns home with more questions than answers to find her place in the struggle to come. The Oncoming Storm abounds with compelling images and excitement, appealing to adults as well as children.

The threatening Baiulus has its counterpart in reality, among humanity's many secretive and dictatorial regimes. Themes This theme of cold-hearted self-interest versus humanistic mysticism is well described as love and beauty make a stand against greed and conformity. In this volume of the series, the influence of the Institute seems too powerful to counter. But the Institute has not allowed for the influence of talking rabbits or the innocence of the young.

This book has a dark core as danger looms and our heroine is tested. But that's the point of books such as this series -- to show the individual how to make a difference, no matter how monolithic the threat. Well done. Find a child and read it aloud, or read it to a friend who'll let you cuddle up in the scary parts. Recommended for those old enough to read and young enough to believe that good can triumph over evil.

Kurzbeschreibung In Vengeance of Shadows, Ellie escaped Isabelle but received a dire warning about the Institute. Now returning home with more questions than answers, Ellie will discover her value not only to this new threat, but to a magical device created by the dragons and hidden by Isabelle. With the net closing in, Ellie is not the only one the Institute has their sights on. Rox and her entire family have been discovered, and their secret revealed. Rox must not only confront this new enemy, but attempt to find her only human friend Ellie in the turmoil, and fight back. But the Institute has resources and power beyond reckoning. They will sweep aside all who oppose and try to stop them. Their ferocity will bring about a storm like no other. Ellie will try and run from the storm and encounter mysteries, foes and allies but in the end, Ellie will have nowhere to hide from The Oncoming Storm.

ber den Autor und weitere Mitwirkende Darren Lewis was born in Cardiff in 1975 and now lives with his family in Norfolk. Although an avid reader of many genres it wasn't until his daughter, Ellie aged 6, asked for a story of her own that inspired him to put pen to paper. "Ellie and I would like to make up bedtime stories, mainly about a kangaroo that travelled the world and have adventures." These bedtime stories would lead to a first book in the trilogy. 'Ellie and the Rabbits' in which our young heroine meets a group of talking rabbits. "My main goals were to induce a sense of wonder for my daughter, a sense of purpose and the importance of helping others." A short book of poems for children followed and the sequel 'Ellie and the Dragon' was published in August and the trilogy was completed and published in December 2013 in 'Ellie and the Battle.' The independent publishers Creativia added the books into their portfolio in early 2014 and published then as an omnibus edition entitled The Seren Trilogy. The next book in a new set of Ellie's adventures will follow soon with the title Vengeance of Shadows. When not writing Darren can be found walking the coastlines of Norfolk or painting and crafting with a particular fondness for steampunk, a subject he hopes to write about soon.
