Von Plume45This book presents the dangers of children's overactive imaginations and

their natural desire to play detective. One new man in the apartment building, two strange letters from an "Agent" and three snoopy kids plotting to prevent multiple murders--maybe even their own! The tendency of Caroline's girlfriend to speak in imaginary newspaper headlines is cute. It's a silly plot resulting from misconceptions and jumping to conclusions based on circumstantial evidence--all of which causes social concerns and embarrassment for Caroline's family. The book also suggests that museums are valuable to society. Clever puns and witty dialogue make this a quick, fun read! This literary recipe represents Lowry Lite!

Well written, but a thin plot
Von Ein Kunde
As you'd expect from Lowry a well written book. Her characters seem well fleshed if somewhat idealised. The story is based around rather unlikely misinterpretations of events but does engage the reader. I enjoyed this light hearted fast paced book but this is not Lowry in top form eg The Giver

A delightfully lighthearted book about a young paleontologist who suspects a neighbor of plotting murder. Characters and setting are interesting and well-drawn.

Kurzbeschreibung When their mother starts to date the mystery man on the fifth floor, who has been instructed by his agent to "eliminate the children" by the first of May, eleven-year-old Caroline and her older brother figure they're targeted to be the victims of a savage crime.
